Loading KML into your private google maps

1) Sign in to google

2) Go to https://mymaps.google.com

3) Press the button "CREATE A NEW MAP"
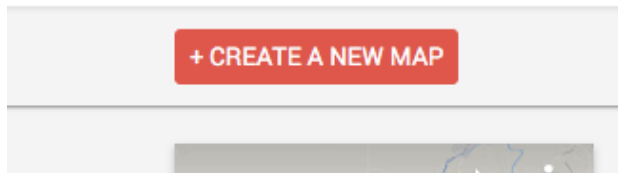

4) Click the import under "Untitled Layer"
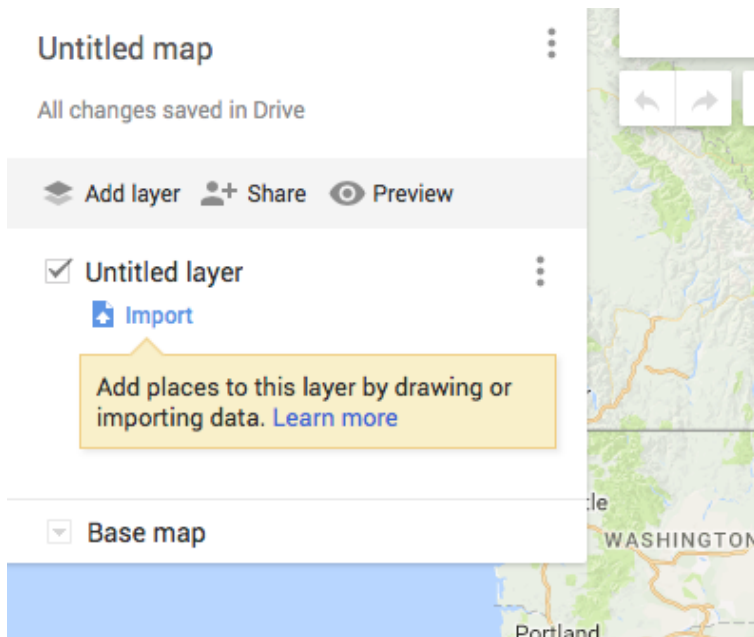

5) Drag and drop the .KML file to the open modal dialog

6) It will automatically upload and convert. Your maps should import successfully.

7) Name your "Untitled map" and you are good to go.
